A LETTER FROM THE CVO AND CEO

Founded in 1887, the YMCA of Greater Nashua has always been a place where all people can find hope, fellowship and healing.

For 135 years our Y has focused on empowering young people, improving health and well-being, and inspiring action in and across communities. At the Y strengthening community is our cause. We know that a strong community can only be achieved when we invest in our kids, our health and our neighbors. By bringing together people from different backgrounds, perspectives and generations, we ensure that all have access to the opportunities, relationships and resources necessary to learn, grow and thrive.

At the Y, we take immense pride in our work to help all of us be our best selves. We provide a place to play, to learn, to be healthy, and to give back. We believe that everyone, regardless of ability, age, cultural background, ethnicity, faith, gender identity, ideology, income, national origin, race or sexual orientation has the opportunity to reach their full potential. Everything the Y does is in service of making sure people and communities thrive.

When you are part of the Y you become part of a community and an organization that is actively and visibly improving outcomes for all. Today, we are transforming to better address issues like educational gaps, social isolation, food insecurity, health disparities, inequities, and more.

We are committed to ensuring that our members, program participants, donors, volunteers and team members feel genuinely welcome, encouraged and supported. The YMCA of Greater Nashua is committed to advancing diversity, equity, and inclusion. As with everything we do, we are guided by our core values of caring, honesty, respect, responsibility and faith—values that compel us to recognize the value of every person and to be a multicultural and inclusive organization.

The YMCA of Greater Nashua strengthens community through youth development, healthy living, and social

responsibility. The Y is unlike any other organization in its ability to deliver comprehensive support to all ages at all points of life. From early childhood, through school years, into early employment, throughout adulthood and beyond, the Y ensures that everyone has the opportunity to reach their fullest potential and thrive with dignity.

2022 was a year like no other in our Y history, our community and our Y. Yet, you, our Y community – staff, volunteers, donors, community collaborators, members and participants – rallied around our YMCA’s cause like never before.

We invite you to read our 2022 Annual Impact Report. In the context of a difficult worldwide pandemic, this is a story about compassion, creativity, resilience and an intense focus on what matters most – keeping our mission strong.

As we head into a hopeful new year, our Y is strong. The support provided by the community as we faced the challenges of post-pandemic was extraordinary. We couldn’t have done it without you.

This Annual Report is important as it allows us to tell the Y’s story in 2022 with much more than numbers and charts alone. The story is our journey through an unprecedented year of navigating change, demonstrating resilience, meeting new needs, and being grateful for the outpouring of support from our members and community.

We hope this annual report shines a light on everything we accomplished together

Sincerely,

Andy Whigham
Chief Volunteer Officer

Mike LaChance
Chief Executive Officer

THE Y: A VITAL COMMUNITY ASSET

With the help of many, we continue to invest in the people, programs and service which strengthen the Greater Nashua community and help us fulfill our vital mission:

To instill values and provide opportunities for lifelong personal growth and the development of a healthy spirit, mind and body for all.

The YMCA is, and always will be, dedicated to building healthy, confident, connected and secure children, adults, families and communities.

The Y is committed to improving the physical health, mental health and general well-being of people in our community. When you are with the Y, it gives you access to much more than the gym, it connects you to a health movement that looks to create a profound impact on fitness, disease prevention, and adherence to a healthy lifestyle, all to better the overall health of our region.

As a 501(c)(3) volunteer-founded, volunteer-led organization the intent is to foster social connectedness, strengthen support networks, and encourage investment in our communities which in turn serves to strengthen the foundations of our community. This is all done at no cost to the neighboring cities and towns, thereby lessening the burdens of government.

Our member dues and program fees support everyday operations. However, the YMCA

of Greater Nashua looks to individuals, businesses, and grant funders to support our annual fundraising campaigns and events. This is necessary to sustain all the financial assistance, charitable services and provide access to people of all income levels. In fiscal year 2021-22, we provided \$1,295,000 in essential services and financial assistance initiatives focused on youth development, healthy living and social responsibility, aligned to the unique and diverse needs of our community. The Y's activities have significantly enhanced public access to wellness, health, educational enrichment, childcare, arts & humanities, teen leadership and numerous other services; especially among children, the disabled and the needs associated with an aging community and other at-risk populations. The Y is and always will be dedicated to building healthy, confident, connected and secure children, adults, families and communities.

\$1,295,000 in community benefits and services to those in need in our community

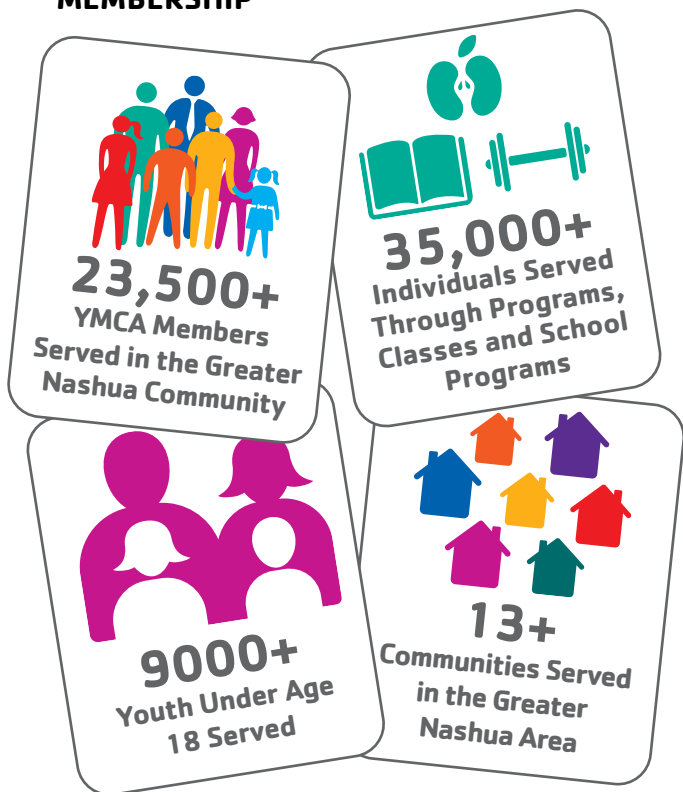

\$706,000 awarded in Y Cares Financial Assistance Scholarships to enable children, adults and seniors with limited financial means to participate in any Y program or service. Significant aid is for childcare, afterschool care and summer camp, allowing parents who are low-wage earners to work or return to school and afford quality childcare.

\$589,000 was invested by the Y and our funding partners toward community-based initiatives. We provide several evidence-based programs at no cost including: YMCA Power Scholars Academy, LiveSTRONG at the YMCA, Prescribe the Y, Y Academy After School Programs and Superhero Training Academy. Additionally we demonstrate social responsibility by allowing many non-profits free use of our facilities to plan and carryout their work and Y staff play an active role in many community-wide initiatives related to closing the achievement gap and public health.

OUR IMPACT AT A GLANCE

The Y is the One Place that people of all ages, color, educational levels, income levels, orientations, identities, abilities, and religions go to because they want to – not because they have to.

Early Education Center

Ninety percent of a child's brain development happens before the age of 5. Child care at the Early Education Center at the YMCA of Greater Nashua provides numerous benefits — benefits that the individual child that they will carry throughout their lifetime and benefits that extend beyond that child. Affordable early education childcare enables parents of all backgrounds to participate in the workforce, something that is key given pandemic induced labor shortages.

For the 400 full and part-time children ages 0-6 in the Y's Early Education program, not only is their day filled with guided self-discovery and experiential learning, the Y's Early Education program teachers focus on providing experiences to facilitate each child's cognitive, social, physical, and emotional growth all while giving parents or caregivers the peace of mind that their child is in a safe, caring environment.

Closing the Achievement Gap

56,700: The number of hours engaged in summer learning by 324 scholars who took part of the Y's Power Scholars Academy operated by the Y in three of Nashua's schools. This successful program is operated by the Y in partnership with the Nashua School District to help under-resourced youth grades 1-9 who are behind grade level catch up rather than fall further behind due to summer learning loss. Our Superhero Academy expanded into 6 schools across the Nashua School District, transforming 324 students into superheroes of their own during the school year.

Olivia Lyman with a student at the Early Education Center.

OUR PREMISE IS THAT ALL KIDS HAVE AMAZING POTENTIAL

We believe that all kids deserve the opportunity to discover who they are and what they can achieve. Values and skills learned early are vital building blocks for life. From the youngest in our child care programs to the teens in our leadership development initiatives, the Y gives kids and teens a safe place to belong, build confidence and learn positive behaviors grounded in our core values of caring, honesty, respect, and responsibility.

Lifeguard to Child Care; Her Passion for Educating Continues to Grow

Olivia Lyman has worked for the Y since high school when she was certified as a lifeguard. As a swimmer for Alvirne High School for four years, she was well prepared to earn her lifeguard certification in a course offered at the YMCA. "I think because I was so involved in the swimming world, it was very easy for me to love lifeguarding. Allie (Allie Thomas, YMCA Aquatic Director at the Merrimack Branch) was a huge, huge impact on me – someone guiding me and leading me. She was the best role model and teacher and kept me engaged in lifeguarding for all those years. She's so great at what she does!" Olivia shared.

Olivia continued to lifeguard at the Y when she started her college career at Southern New Hampshire University (SNHU). She did leave the Y in 2018 because the commute from the SNHU campus to the Y was too much when coupled with her studies.

Olivia earned a Bachelor of Science degree in Child Psychology from SNHU in May of 2021 and joined the Y's child care team at the Early Education Center January of 2022.

"I have always known that I wanted to go into psychology in general. After teaching swimming lessons and babysitting for several years, I found an interest in child psychology. I found that aspired to work with kids in one aspect or another. In college I found a super strong interest in child and family psychology through the multiple psychology courses, I took during my time at SNHU. I plan to go back to school at some point to get my master's degree in Child Psychology or Clinical Mental Health. Eventually, I want to be a child life specialist, practicing in a hospital setting," She shared that the position she aspires to is akin to a family therapist for children in a hospital setting, treating

children through play, focusing on the psychological aspect of a child's hospital experience. "I want to be there for kids and their families during that difficult time. Parents and their children have to endure tough experiences while in situations like this and it's important for someone to be there guiding and helping the child and family along the way," she said.

"I am working with 2-year-olds right now and look forward to working with this age group in the fall, as well. When I first started in child care, Elizabeth (Elizabeth Witmer, Child Care Director) and Kristie (Kristie Perreault, Assistant Child Care Director) asked which age children I would like to work with. I had experience working with older kids and babies. I thought it would be great to get experience working with children in the 2-year-old stage. I fell in love with working with this age group. It is such a rewarding experience watching my kiddos grow, explore, and learn during their time in our classroom. I started in January and they have all grown so much since then. When I started, we were still wearing masks so it was difficult for the children to learn to talk and accentuate their words when they couldn't see our faces and how our mouths moved! None of them were talking when I started, and now they are starting to learn to speak and use more words." Olivia was hired as a lead teacher in the Karner Blue Classroom.

I would recommend working for the Y .You have to have love and passion for kids, teaching and growth. The Y is a great place to grow and it's a great opportunity to learn. I have found that there is such an opportunity for growth. The Y is a fun place to work," she said.

The Real Impact of Our Programs

Ninety **Prescribe the Y** youth anti-obesity initiative participants: 55 participants increased their weekly hours of exercise by 55% compared to before participating in Prescribe the Y and are watching 45% less hours of TV!

What Prescribe the Y Participants are saying:

“It is a really good program. We really got more aware of exercise, eating healthy food, drinking water and more. We really enjoyed these 10 weeks. Every time we learn something new about a healthy lifestyle. Ms. Eirikur was awesome!”

“We think the program was an amazing experience. Wish it did not end. It helped motivate my child into physical activities as well as encouraged better eating and more awareness of “bad” ingredients.”

31 Cancer survivors reclaimed their health this year in the **LiveSTRONG at the Y**, a small-group cancer survivorship program for those who are living with, through or beyond cancer.

16 participants, many who participate multiple times a week year round, made friends and felt supported in **Cycling for Parkinson’s**. This support program safely pushes class members to new limits, increases energy levels and balance, while providing support to those dealing with a Parkinson’s diagnosis.

28 individuals engaged in a **pre- or post-bariatric weight loss surgery pilot program** at the Nashua Branch. In collaboration with the Y, Southern New Hampshire Weight Management at Southern New Hampshire Health is now in its third session of a new eight-week weight loss course that features both lectures and exercise instruction.

David Crotzer Preparing for a Workout at the Westwood Park YMCA.

BALANCED LIVES NEED A FOCUS ON SPIRIT, MIND AND BODY

The Y is a leading voice on health and well-being, a leader in fighting chronic disease, and we're committed to empowering people to lead fuller lives. We bring families closer together, encourage good health and foster connections through fitness, sports, fun and shared interests. We believe that being healthy means more than simply being physically active. It is about maintaining a balanced spirit, mind and body. We bring families closer together, promote healthy living, and foster connections through fitness, sports, fun and shared interests. As a result, millions of youth, adults and families receive the support, guidance and resources they need to become and stay healthy.

David Crotzer was on a Quest to Get Healthy for Transplants and Surgeries

Meet Y member and inventor David Crotzer. When David retired from his career as a medical devices engineer in April of 2019, it gave him more time to explore his passion: inventing. One project alone garnered him 14 patents. He invented a microprocessor socket for computers used for ATMs at banks.

Shortly after retirement, David faced some medical challenges. Last January he had open-heart surgery at Catholic Medical Center in Manchester. "After three days in the hospital I came home. Part of my recovery program was to start an exercise regimen under the direction of my cardiologist at Southern New Hampshire Hospital. I met with Kim Adie (YMCA Healthy Living Director) and discussed my goals. I joined walking program at the Y, called Walking with Ease. We started with a 15-minute warmup inside, walking the track, followed by a half hour walk outside, and another 15 minutes back inside cooling down on the track. I also participated in Enhanced Fitness (now called BOOST), an aerobic program held at the Westwood Park Y.

Kim Adie said, "BOOST is a small group training program perfect for individuals looking to get back to fitness. We see all kinds of participants from people who have never exercised before to those who used to be avid gym-goers recovering after surgery or health issues. Classes focus on weights and cardio that can help build strength, increase flexibility and improve balance. Certified instructors keep

the group small so each participant can get the attention they need." (Dave was one of 23 people who participated in BOOST this year.)

Through his Y participation, David has met his goals with great success. He initially struggled to walk the track for long periods of time. He now can jog around the track.

"I first met Dave when he joined Boost to help him prepare for a Kidney Transplant. From the very first class, you could tell Dave was on a mission to improve his physical health. He comes into every class with a positive attitude, a fun personality, and a willingness to do whatever it takes to become stronger," said Eirikur Holt,

His success is important as he faces another surgery soon. "I am currently on Dartmouth-Hitchcock Medical Center (DHMC) in Lebanon, NH, kidney waiting list for surgery. I have a kidney donor under evaluation and looking for a backup."

"I've taken my health journey seriously and appreciate my time at the Y. I started last March with two days of walking at the YMCA in Nashua and two days of aerobics and weight lifting at the YMCA at the Westwood Park facility, he shared."

"David's progress at the Y has been brilliant. He's an amazing example of what taking that first step towards healthy changes can do. It has been an honor to be a part of his health journey and help him achieve his goals," Kim Adie shared

Volunteer Highlights

- Our Community Service Volunteers continued to support End 68 Hours of Hunger by delivering food bags to children at the YMCA Early Education Center, delivering fresh produce and groceries supplied by Nashua Soup Kitchen & Shelter to pop-up pantries around Nashua, and offering activities for senior citizens at the Nashua YMCA for a total of 525 hours.
- Westwood Park YMCA had three local college students complete Sports Internships for a total of 288 hours.
- Using grant funds our Y secured through the Centers for Disease Control and Prevention (CDC) in partnership with Community Catalyst and YMCA of the USA, we partnered with Harbor Care in Nashua to provide extensive COVID-19 and Influenza vaccine education and outreach at 47 different Nashua events over the past year. Harbor Care hosted 31 vaccine clinics where more than 1,000 individuals were vaccinated for COVID-19.

Mike Helps Control his Diabetes Through Exercise at the YMCA.

THE YMCA BELIEVES OUR COMMUNITIES ARE STRONGEST WHEN EVERYONE IS INCLUDED

Across the country, the Y helps people give back and assist their neighbors by offering everyone opportunities to volunteer, advocate and support programs that strengthen community. Groups of individuals, through their involvement in the Y and collaborations with policymakers, are able to address many of the most critical social issues facing our communities. This means giving back and providing support to our neighbors.

Collaborations Help Further Our Impact and the Success of Their Participants

Coming to the Y twice a week for the 'Walk with Ease' program is a highlight of Mike's week. Mike comes to the Y through our partnership with the PLUS Company, a Nashua non-profit that offers job development and career assessment for disabled adults.

Recently, he was featured on the PLUS Company's social media accounts as their Client of the Week.

Mike joined The PLUS Company community in 2006 after graduating from Nashua High North. He first received services from the ICR department. When his mom was ill Shawna helped him with laundry, cleaning, haircuts, and grocery shopping. When his mom had to go to an assisted living facility the Residential department helped him with a place to live. Peggy and staff provide a home to him. The Vocational department provided employment to Mike. Ellen got him employed with AirControl LLC. He also attends Adult Education classes throughout the week. He lost 25 pounds doing the Walk with Ease program with the YMCA. He loves Friday night Movie Nights. We thank you Mike for the wonderful person you are!

When Mike recently chatted with Elizabeth Covino, the Y's chief community relations officer, he shared that he's been working hard to eat better and exercise. He said he's a type 2 diabetic and going to the Y is a big part of his social time and his planned exercise time. "I go on Mondays and Wednesdays. We leave the PLUS Company about 10:45am and when we get to the Y we walk for about an hour. I love going with my friends and staff. I'm eating good meals. I'm type 2 diabetic and

I'm am not supposed to eat a lot of sugar and need to eat in moderation. Kim and Eirikur are very nice and very, very helpful. They keep track of the laps we walk (around the indoor track)," he said. Kim Adie is the Y's Healthy Living Director and Eirikur Holt is the Y's Healthy Living Coordinator.

Last week Mike shared with Eirikur that he saw one of his teachers from grade school last week at the Y. They recognized each other immediately. "They got to chatting and looked forward to seeing each other every week. And they even have an appointment for her to take him to lunch! She shared with me that Michael was her inspiration for going back to school and getting her teaching degree." She added, "When asked if there were any other things he wanted to say about the Walking Club, he smiled, and in a very proud voice, he told me that he has lost a lot of weight thanks to all his walking at the Y."

"Michael is an amazing individual! He is always smiling and eager to get started at each class. He has shown great improvement over the past couple of months. When he first started, he was only able to do one lap at a time before needing to take a long break and was only able to do 2 laps total in the 40 minutes. He is now up to walking a full mile (9 laps), with only a 5 minute break in the middle," said Eirikur.

UNAUDITED FINANCIAL STATEMENT

Year Ending August 31, 2022

INCOME

Programs	\$7,291,000
Membership	\$4,114,000
Contributed Income	\$1,782,000
Grants	\$991,000
Total Income	\$14,178,000

*Includes salaries & wages, IT services, insurance, advertising, interest expenses, etc.

\$332,000

invested in phase one of a Wellbeing Center at the Nashua YMCA, adding a ninja obstacle course to the Westwood Park YMCA, making technology upgrades to the spin and group exercise studios and upgrading to new cardio equipment at all branches.

THE Y: HERE FOR GOOD

We know that lasting personal and social change comes about when we all work together. That's why at the Y, strengthening community is our cause. Every day, we work side-by-side with our neighbors to make sure that everyone, regardless of age, income or background, has the opportunity to learn, grow and thrive.

.....

\$706,000 in financial assistance was provided to ensure the Y is accessible to all.

Annual Campaign Contributors

Thank you to the fiscal year 2021-22 annual campaign donors who contributed funds to benefit the Y CARES Financial Assistance Program, providing scholarships to local children and families in need, so they can experience the Ys programs and services.

Grant Funders

Thank you to these generous donors for entrusting the Y with your dollars to invest in making good happen. With the support of these businesses, foundations, individuals and government grants toward specific initiatives, the YMCA of Greater Nashua was able to:

- Fund eight year-round free or low-cost evidence-based chronic disease related programs to meet community needs for those with Parkinson's Disease, cancer, arthritis, pre-diabetes, mental health, and nutrition and wellness support for children and adults struggling with weight issues.
- Operate Power Scholars Academy to help 300+ Nashua students who are behind grade level catch up over the summer rather than fall further behind through a 5-week academic and enrichment program in partnership with the Nashua School District.
- Partner with Harbor Care to underwrite the costs of extensive COVID-19 and influenza vaccine outreach.
- Provide wage increases and bonuses to help recruit and retain the 100+ child care staff at the Merrimack Y's Early Education Center, Nashua Y Creation Station Preschool and four Y Academy after school childcare sites who are the workforce behind the workforce.
- Support more than 150 local lower-income families with Y CARES Financial Assistance Scholarships to make YMCA childcare, afterschool and summer camp programs financially accessible to them.

YMCA HERITAGE CLUB

Supporting the Y for generations to come.

The YMCA's Heritage Club was established to recognize a special group of men and women who believe in the mission and traditions of the YMCA. These individuals want to ensure that the Y's valuable life changing programs and services will be continued for generations to come.

Membership in the Heritage Club is offered to those who endow the YMCA of Greater Nashua as the result of thoughtful estate planning through bequests, annuities or

charitable remainder trusts, pooled income funds and life insurance, or through lifetime gifts including cash, appreciated securities and real estate.

There are a number of different ways in which you can provide for the YMCA of Greater Nashua's future while, in some cases, providing a lifetime income for you and your spouse.

If you have included the YMCA of Greater Nashua in your estate planning, you are eligible for membership in the Heritage Club. For more information, please contact Julianne Simendinger, Chief Development Officer, at 603.689.2406.

OUR MISSION

To instill values and provide opportunities for lifelong personal growth and the development of a healthy spirit, mind, and body for all.

OUR CAUSE

We know that lasting personal social change comes about when we all work together. That's why at the Y, strengthening community is our cause. Every day, we work side-by-side with our neighbors to make sure that everyone, regardless of age, income or background, has the opportunity to learn, grow and thrive.

OUR FOCUS

- **Youth Development:** Nurturing the potential of every child and teen.
- **Healthy Living:** Improving the nation's health and well-being.
- **Social Responsibility:** Giving back and providing support to our neighbors

OUR IMPACT

At the Y, we change lives. We provide a greater sense of achievement, belonging, meaning and inspiration in the more than 32,000 individuals we serve. Our impact is felt when a child learns a new skill, when a teen is inspired to greater heights, when a family spends more quality time together, when a cancer survivor feels stronger, and when a senior feels connected. More than that, the impact on those 30,000 individuals ripples throughout the community, making our community stronger.
