

Westwood Park is Getting an Upgrade!

Beginning Monday, September 21, we'll start a major renovation of the men's and women's locker room and shower areas at the Westwood Park Y. The project is expected to be completed by early December.

The renovated space will feature two new universal shower suites, each with its own shower, sink and toilet, along with new private changing stalls and an updated common changing area.

What to Know During Construction:

- Restrooms will remain open. Toilets, urinals and sinks will continue to be available throughout the project.
- Showers will be unavailable from September 21 through the completion of construction.
- Locker room access will strictly be through the main/front restroom entrances. Rear locker room entrances will be closed during construction, and a limited number of lockers will be relocated outside the construction area for member use.
- Cycle Studio access will be through the back Admin/Meeting Room while construction is underway unless otherwise instructed for specific classes.
- Temporary walls will separate the construction areas from member spaces so Westwood Park can remain open and accessible throughout the project.
-

We know renovations can cause some temporary inconvenience, and we appreciate your patience as we make this significant improvement to Westwood Park. We're excited to share the finished space with you once it is completed!
